DETAILED ACTION

The Amendment, filed on April 11, 2007 has been entered and acknowledged by the Examiner.

Cancellation of claims 102 and 104 has been entered.

New claims 106-108 have been entered.

Claims 1-101, 103 and 105-108 are currently pending in the instant application.

Election/Restrictions

Claims 69-101, 103, 105-108 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 1-68, directed to the process of making an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on September 7, 2005 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the

Art Unit: 2879

provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-101,103 and 106-108 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The subject matter of claims 102 and 104 were indicated as being allowable in the previous office action and reasons for allowability were given. Independent claims 1, 69 and 108 contain the allowable limitation of claim 102 and hence are allowed.

Claims 2-39 and 70-93, 100-101, are allowed because of their dependency status from claims 1 and 69 respectively.

Independent claims 40, 94 and 107 contain the allowable limitation of claim 104 and hence are allowed.

Claims 41-68 and 95-99,103, 105 are allowed because of their dependency status from claim 40 and 94 respectively.

Regarding claim 106 the prior art of record neither shows nor suggests a filed emitter having all the limitations as claimed and particularly each of the plurality of substantially rod-shaped structure comprising dielectric material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
